# GAME

## "PLAY JELGAVA COUNTY"

The tourism route for boating has been created along the River Lielupe from Bauska to the sea. 18 pontoon foot-bridges and information stands have been set up in the spots along the Lielupe banks.

Go on an informative and exciting trip through Jelgava county by participating in the game "Play Jelgava County!".

The application is designed as a game, allowing participants to visit all parishes in Jelgava county. In each parish, specific objects have been selected, in which to fulfill a task prepared by the youth of the county or to give a recommendation for the development and improvement of the environment.

By collecting a certain number of pieces of the puzzle, which are revealed by answering questions and sending suggestions, the participant can apply for a prize prepared by the municipality of Jelgava county. The prize - delicacies from local food producers.
