This map has been produced under the Interreg VI-A Latvia-Lithuania Programme 2021-2027 project No. LL-00134 "Enhancement of sustainable water tourism in Lithuania-Latvia cross<sup>,</sup> border region, involving local entrepreneurs and communities"/ WaterTour. This map has been produced with the financial assistance of the European Union. The contents of this map are the sole responsibility of Zemgale planning region and can under no circumstances be regarded as reflecting the position of the European Union,

SAFE AND RESPONSIBLE BOATING It is compulsory to wear a life jacket when on the water. Before taking the planned route, make sure that the weather forecast is suitable for boating throughout the day Assess whether the trip is suitable for The number of boaters on a boat is limited to the number specified in the

model specifications Be very careful in fast rivers, rapids and when encountering trees, rocks and other natural or artificial obstacles. In areas of a river where there is a strong current, the boat should be kept parallel to the current.

Choose clothing and protective equipment suitable for the weather It is not advisable to grab at trees or branches in the river while the boat is moving. Doing so may result in the boat Assess your abilities and choose the best route for you! • Be respectful of property, before setting out, be sure to ask permission if you are

allowed to rest on a private property.

 Staying in private areas must be agreed · You need to carry an identity document when boating along the Latvia-Lithuania

**GREEN TIPS** 

Leave your car where it does not harm nature or disturb other road users. • Dispose of litter in designated areas, do or on the road. Leave the rest area and surroundings in the same condition as you found them • Get along with fishermen, try not to

scare fish away. Respect wildlife, keep your distance from animals and try not to disturb Only use established campfires if available Do not build campfires in protected areas or where they are Do not pollute rivers. Avoid using soaps

or detergents in natural water bodies.

Zemgale and Aukštaitija invite you to discover river routes that are both well-known and lesser-known - suitable for peaceful relaxation or nature adventures. Here you will find both large and small rivers that become real boating gems in spring! In Zemgale and Sēlija there are 56 boating routes on 12 different rivers, and in Aukštaitija there are 28 routes on 12 rivers. The routes include different levels of difficulty and are suitable for experienced boaters, families with children and anyone who wants to enjoy the proximity of water and natural landscapes

unpredictable lecava, which winds its way through the Latvian landscape. In Lithuania, the picturesque and varied Šventoji is definitely worth exploring, as is the Nevėžis, a jewel of the central Lithuanian lowlands with an ancient valley whose beauty beckons all boaters.

The routes follow important rivers, from the mighty Daugava, known as the River of Destiny, to the Lielupe, the largest river in Zemgale, and the

A special adventure is the possibility to cross the border between the two countries, for example on the River Mēmele (Nemunėlis) from Biržai to Bauska or on the River Mūsa (Mūša), where it is possible to plan routes on both sides. These cross-border routes offer a unique opportunity to experience both Latvian and Lithuanian nature on one trip.

The less known and quieter rivers such as the Suseja, Vircava, Platone, Svēte and Kriauna (Līčupe), which are located on the border, as well as the Būka, Vyžuona, Jara and Dysna rivers, which flow through wild landscapes, also offer exciting adventures, most suitable for thrill-seekers! Choose Zemgale and Aukštaitija as your next boating destination and enjoy unforgettable moments on the water!

O Route length Compare the control of the contro C Canoes Sea kavaks

Boating along the winding River Dysna a hidden gem of nature. The Dysna is a left-bank tributary of the River Daugava. It originates from Lake Parsvetas, with part of the river flowing through Lithuania. A 30 km section runs along the Lithuanian-Belarusian border, traversing the Dysna Hydrographic Reserve, which preserves a pristine river valley in a limnoglacial plain. Ideal for nature enthusiasts seeking tranquillity and adventure, the river is best navigated in spring or early summer. Total lenght of the river in Lithuania: 77 km (19 km through reservoirs and 39 km along the Lithuania-Belarus border) In Ignalina Municipality - 77 km
